info@eurocor.de · eurocor.de

Eurocor is a rapidly growing European Life Sciences Technology Corporation specializing in the research, development and manufacture of cardiovascular and endovascular products. Eurocor is providing interventional physicians with innovative cardiovascular and endovascular balloon and stent technologies. The products are used in minimally invasive cardiovascular and peripheral surgery and comply with biological and biomechanical principles to offer highly flexible, adaptable solutions.

Eurocor has designed an innovative method for the delivery of drugs via a balloon catheter that is particularly compatible to the patient.

One heartbeat ahead® – with innovative products such as **DIOR®** and **FREEWAY™**.
