Eurocor: Presence in Paris

Bonn life sciences company with extensive programme at Europe's leading congress for interventional cardiology

- **International symposium**
- **Clinical lectures**
- **Informative exhibition stand**

Bonn, 3 May 2010 – "**Drug-eluting balloon DIOR: from the concept to clinical use**" - is the title of the symposium being held by Eurocor GmbH/Bonn at the Euro-PCR, Europe's leading congress for interventional cardiology in Paris on 26 May. Leading scientists from Argentina, Austria, The Netherlands, Spain, Germany, Singapore and Italy will be coming together in **Salle Vendome** to share their experience with Eurocor's DIOR system.

Already one day before this, on 25 May 2010, **Dr. Pieter Stella** will be presenting the latest results of a multicentre randomised study in the **Main Area**. On the same day, in **room 253 Dr. Konstantinos Spargias** will also be reporting about the new approaches to treating valvular heart disease, providing information about trials with Paclitaxel-eluting balloons for treating aortic valve stenosis.

Throughout the whole congress from 25 to 28 May, Eurocor can be visited at its extensive **exhibition stand (F32/F33)**.

"We are looking forward to presenting our latest developments and above all Eurocor's coating technologies to the international professional audience in Paris", says Katja Hausner, Director Corporate Business Affairs at Eurocor.

The company

Eurocor GmbH is a rapidly growing life sciences company specialising in the research, development and manufacture of cardiovascular catheter devices and coronary stent technologies. The products manufactured by the company in Bonn are used in minimally invasive cardiovascular surgery and comply with biological and biomechanical principles to offer highly flexible, adaptable solutions. Eurocor has developed an innovative method for drug-eluting balloon catheters with maximum patient safety and compatibility.
